Hi, I'm Kevin. I am a grade 11 student at St. Theresa of Lisieux CHS. I possess a deep passion for entrepreneurship, computer science, and technology. Successfully completing numerous projects each year has honed my skills in design, programming, and hardware engineering.

In my role as a software developer at Cero Webb Technologies Inc, I showcase my entrepreneurial spirit and technical expertise. Additionally, I work as an IT support specialist at Roger's Computer. I am also a SHAD Fellow at SHAD TMU.

My leadership shines through my title of captain for my DECA and FBLA team, as well as being the trainer for Markham FBLA. My unwavering dedication and diverse experiences make me a promising force in the realm of both the technical and business world.

SKILLS

- Accounting
- Microsoft Excel
- Customer Service
- Customer Relationship Management (CRM)
- Computer Repair
- Cybersecurity
- Software as a Service (SaaS)

WORK EXPERIENCE

TRAINER

FBLA | Richmond Hill, ON   NOV 2023 - CURRENT

As a trainer at Markham FBLA, I helped lead the biggest new chapter in FBLA in Canada for 2024. Training more than 30 Members in the Calculations cluster, I organized bi-weekly meetings for members to practice and offer feedback.

USHER

City Of Richmond Hill | Richmond Hill, ON   SEP 2023 - CURRENT

As an usher working at the Richmond Hill Centre for the Performing Arts, I provide excellent customer service by greeting patrons, directing them to their seats, and answering questions to enhance their overall event experience. I constantly collaborate with my entire usher team to ensure smooth crowd management and safety, maintaining a clean and organized environment.

SHAD FELLOW

Shad Canada | Toronto, ON   JUL 2023 - CURRENT

INFORMATION TECHNOLOGY SUPPORT

Rogers Computer Technologies | Toronto, ON   JUL 2022 - CURRENT

Working 15 hours per week as a part time student. Assigned with Tier 1 (help desk) and Tier 2 (field support) with solving IT, network, cybersecurity, application, and computer hardware related issues for the customer.

Shadowed an expert in the field, gaining hands on experience repairing computers.
